

EROSIONS AND RENAISSANCE ACT 4, PART 1: EROSION OF ALL HUMAN RIGHTS

On December 10 of 2005, in New York, at St. Mark's Church in the Bowery, 18 digital artworks were collected online and their reproduction exposed as 4° act, part 1, of the *Erosions Show* to raise attention on the erosion of all human rights. It was a reminder of our tumbles in the respect for the rights of countless people in these trying days of “security” at the cost of freedom.

100 Years Albert Einstein's Celebration

On December 9 of 2005, to celebrate the 100th anniversary of Albert Einstein's relativity, it was staged an experimental digital communication via computers between the Computer Lab Lehman College in the Bronx and the Physics Dept. of the University of Cagliari, in Sardinia.
